

IBA JOB AID

March 2007

TABLE OF CONTENTS:

The DNRC Incident Business Advisor works for the Agency Administrator (Line Officer) and has five primary responsibilities:

1. Conveys and defines the Line Officer's administrative and fiscal direction to incident management teams, buying teams, expanded dispatch organizations and area command teams that may be supporting DNRC.
2. Advises the Line Officer regarding incident business management practices as needed.
3. Advises the IMT and other organizations of DNRC specific business management practices and provides information as needed.
4. Monitors business management practices and incident operations to assure cost management objectives are met.
5. Ensure fire records meet DNRC standards and both the cost unit database and report products support DNRC's need to implement cost share agreements, provide FEMA documentation or other specific needs.

This job aid contains information and forms recommended for use by the Incident Business Advisor. This job aid cannot be used by itself. It contains supplemental material to the Interagency Incident Business Management Handbook. If contradictions occur, the Incident Business Management Handbook takes precedence. Incident Business Advisors should be thoroughly familiar with all chapters of the Incident Business Management Handbook.

RE: Documentation Needed to Make Payments for Equipment Used on Fires

To help ensure compliance with recent audits, the IIBMh and the Best Value Contract, please comply with the following:

General:

1. On any of the documentation, if the signature is illegible, please print the name underneath the signature. In the event a question arises, there will be a need to contact the parties involved.
2. Generally speaking, contracts can only be modified by the issuing contract officer. A note by anyone other than the issuing contract officer changing the terms of a contract is (probably) not acceptable.

Specific Items Required for Each Payment

1. Copy of the Emergency Equipment Rental Agreement, OF-294.
2. Documented proof that the equipment was ordered, this should be in the form of a resource order. If these are not available due to circumstances such as severity or initial attack, please print the name and phone number of the DNRC employee ordering the resource in space marked #12 Resource Order Number on the Emergency Equipment – Use Invoice. **(Not required for initial attack– note IA on shift ticket)**
3. Copy of pre and post Vehicle/Heavy Equipment Safety Inspection Checklists OF-296. Box 10 of the pre-use inspection form is used to determine the start of the operation time. **(Not required for initial attack– note IA on shift ticket)**
4. Original Emergency Equipment Shift Tickets, OF-297, vendor provided daily work sheet, or other document provided by incident. Please make sure there is a start time and end time for each day. Also be sure to have a vendor signature on each shift ticket.
5. Original Emergency Equipment Use Invoice, OF-286 or original commercial vendor invoice.

Documentation required if they are used:

1. Emergency Equipment Fuel and Oil Issue, OF-304 (if deductions are made) or a log with approving official signature included.
2. Repair orders, commissary issues, findings and determinations for claims, and any other documents supporting additions or deductions to the payment.

Tips for Auditing EERAs

Pertinent documentation required:

Equipment Use Invoice OF-286 stapled to the following

- Original Shift Tickets
- Fuel deduction supported by fuel issue tickets
- Emergency Equipment Rental Agreement
- Resource order (printed from ROSS showing how resource was filled – preferable not hand written on how filled. Also – it is preferred to not accept a log of resource order numbers and resource ordered – get copy of actual resource order in ROSS with information on how filled, etc)
- Vehicle pre & post inspection
- Xerox copy of Emergency Equipment Rental Use Envelope if available

Audit Procedures

1. **Payment documents.** Ensure that payment documents with supporting invoices contain all the required approvals. Contact Incident Management Team or Incident Unit to obtain any missing documents or elements required for payment process.
 - Original Form OF-286, Emergency Equipment Use Invoice
 - Copy of Form OF-294, Emergency Equipment Rental Agreement
 - Copy of form OF-296, Vehicle/Heavy Equipment Inspections Checklist if available
 - Original Fro OF-304, Emergency Equipment Fuel and Oil Issues, if applicable
 - Copy of Form FO-287, Commissary Issue Record, if applicable.
 - Other attachments, such as deductible repair invoices and claim settlements.

See section 28 of FSH 5109.34, Interagency Fire Business Management Handbook for sample of these forms.

2. **Document Review.** Audit each document as follows.
 - Make sure the OF-294 is signed and dated by both the Contracting Officer and the Contractor.
 - Verify that rental rates, VIN numbers and special provisions are transferred correctly from Form OF-294 to Form OF-286.
 - For all EERAs review clauses and Regional Supplements, Special Provisions and State of Work related to the Agreement(s) to ensure invoices are filled out correctly and documented to support payment submitted for processing.
 - Verify that the dates and times are transferred properly to Form OF-286 after a complete review of Form OF-297's for conflicting and/or duplication of dates and times. OF-297's (shift tickets) must be signed and dated by the Government and the Contractor. If a signature is missing you may fax the shift ticket to the Contractor and obtain a signature via fax. However, government signatures must be original signatures.
 - Verify unit price extensions on Form OF-286.
 - Deduct the cost of fuel, oil, repairs and/or commissary items provided by the Government. Verify that these amounts are transferred from all issue sheets.
 - Add the authorized cost of fuel, repairs, and so forth, provided by the contractor.
 - Ensure that amounts shown for settlement of disputes are documented and approved by a contracting officer, either on Form OF-286 or an attachment thereto.
 - Check that the Taxpayer Identification Number is provided.
 - Contract Claims. Contract claims may be paid with the credit card or convenience check if the EERA payment(s) was processed in this manner.
 - Are all invoices with hand written calculations correct?
 - A resource order must accompany the payment package. If not, call dispatch and secure a copy of the ROSS resource order report. If resource order does not reflect the correct date and time, a pen change to the resource order will be accepted. The change must have some documentation and must be signed by a member of the IMT.
 - Watch for first and last days when paying time under hire or – especially if the equipment is being moved from one incident to another. Please document on the invoice and final shift ticket that the equipment is being transferred to another incident and identify name and number of incident.
 - Lowboys are generally deemed demobed unless documented on the IAP or in the payment package or there is a statement that the IMT ordered the Lowboy to be held at the incident.
 - When making changes to dollar amounts on the invoice, place an "x" to the left of the incorrect dollar amount and write the audited amount above the incorrect amount and initial the change (e.g.x\$100.00).
 - All persons submitting payment invoices must review the entire EERA to ensure daily/hourly/rates, special provisions etc., are clearly stated in the agreement and understood prior to submitting for payment.

IBA Questions

Your role as an IBA is that of advisor, facilitator, and liaison. You are there to provide fiscal oversight and agency-specific incident business expertise and advice, and to facilitate communications between the home unit, the IMT, and the support units. Upon arrival at the incident, and depending on the circumstances, the following are some questions you may need to ask.

Questions for Line officer/Agency Administrator (your boss while on the incident):

- What are your issues and concerns? What do you need from me as an IBA, how can I help you?
- How much support can I expect from the DNRC land office/unit staff and who are my primary contacts there?
- Do I have access to a cell phone/computer, etc?
- What resources (personnel/equipment, agency/fire dept/county/private contractors) are currently on the incident? What orders are expected to be filled in the near future?
- Are there any political considerations I should be aware of?
- What are the cost containment considerations – for DNRC, for the other agencies?
- What incident-specific issues are addressed in the Delegation of Authority to the IMT?
- Has the line officer met with the FSC to discuss incident finance package requirements, cost reporting requirements, DNRC-specific policies & procedures, cost containment guidelines, etc? Can I help with this?
- Who do the Buying Team and/or Expanded Dispatch report to and who is their incident agency liaison? Have operating procedures between these two support units been established?
- Is there a need for a cost-share agreement? Has one been initiated? If so, how will it affect the cost reporting requirements? Is there anything I can do to help facilitate the cost-share agreement process?
- Are there any other local agreements that I should be aware of? i.e.: Annual Operating Agreement with county, local law enforcement, etc.

Questions for IMT Finance Section Chief:

- Do you have a copy of the DNRC Operating Guidelines? Other applicable agency operating guidelines? Agency service and supply plan? The regional IIBMH supplements?
- At the AA's initial briefing, were there issues or concerns shared regarding incident business operations?
- Are you aware of the DNRC contracts in place for items such as sack lunches, water, Gatorade, port-o-potties? Are these contracted vendors being used according to the terms of the contract?
- Are you aware of DNRC policies related to payment of county/fire dept forces? Do you need additional information or assistance?
- Is there county/fire dept involvement in the incident such that you need to order a County Agency Representative or County Fire Advisor to assist in managing these resources?
- Is the ordering schedule adequate and are the resource orders processed promptly?
- How are you tracking incident costs? Are you reporting them to the home unit daily?
- What are the cost reporting requirements related to the cost share agreement, if there is one?
- Have you been informed of the DNRC fire finance package requirements?
- Are there any agency-specific questions or issues that I, as an IBA, can help you with?

Questions for Buying Team Leader:

- Do you have a copy of the DNRC Operating Guidelines? Other applicable agency operating guidelines? Agency service and supply plan? The regional IIBMH supplements?
- Are you aware of the DNRC contracts in place for items such as sack lunches, water, Gatorade, port-o-potties? Are these contracted vendors being used according to the terms of the contract?
- How are communications between Expanded Dispatch, the Buying Team, and the IMT?
- Are you tracking and reporting costs for items you are procuring for this incident? Are these costs being properly reported to the home unit?
- Do you have adequate staff, equipment, and facilities?
- What operating hours have been established? Are they adequate to meet the needs of the IMT?
- How is the ordering process going, delays, problems?
- How is accountable property being tracked and documented?
- Are you actively seeking to procure resources, supplies, and equipment locally wherever possible?
- Do you have any agency-specific questions or concerns that I can help with?

Questions for Expanded Dispatch Coordinator:

- Do you have a copy of the DNRC Operating Guidelines? Other applicable agency operating guidelines? Agency service and supply plan? The regional IIBMH supplements?
- Are you aware of the DNRC contracts in place for items such as sack lunches, water, Gatorade, port-o-potties? Are these contracted vendors being used according to the terms of the contract?
- How are the communications between Expanded Dispatch and the Buying Team and the IMT?
- Is the IMT ordering resources through Expanded Dispatch and/or the Buying Team, or direct from the source? Are proper procedures being followed?
- Are Expanded Dispatch personnel buying direct versus going through the Buying Team? If so, is there a tracking process in place?
- What operating hours have been established? Are they adequate to meet the needs of the IMT?
- How is the ordering process going, delays, problems?
- How is accountable property being tracked and documented?
- Are you actively seeking to procure resources, supplies, and equipment locally wherever possible?
- Do you have any agency-specific questions or concerns that I can help with?

Additional sources of information:

- Attend all planning meetings and briefings related to the incident if possible
- Consult with incident unit administrative staff for questions related to issues specific to that area and local operating agreements
- Obtain the Incident Action Plan, the WFSA, and the Delegation of Authority
- Consult IIBMH, DNRC Operating Guidelines, National Interagency Mob Guide, NRCG Mob Guides for Private contractors and Local Govt, Fireline Handbook, etc.
- Contact agency fire business management coordinators listed in the IIBMH Zero Code for agency-specific questions.
